## I have a question about my order. What should I do?

If you have any questions, the easiest and fastest way of getting them answered is to telephone one of our friendly and knowledgeable staff. If this is just not possible then you can email us but it may not be possible for us to reply as quickly as we would like so we do recommend calling us.

If calling about an order, please have either the delivery note from the order or your receipt from the online store so we can take the relevant details we need and get to work helping you.

## Can I buy Forge World models anywhere else?

Yes. Forge World products can also be purchased from any of the events that we attend. For an up to date list of events we will be attending over the next few months, please visit the Events section of the Forge World website.

As we often cannot take our entire range with us to every show, to guarantee getting the models you want at these events we recommend sending a reservation order to us. All we need is your name, which show or event you want to collect your order at and of course, your list of models. We will then pack up your order, take it with us and it will be there waiting for you at the show.

## Terms and Conditions

To save room for more new models, we have decided not to print Forge World's Terms and Conditions in our catalogue. Of course, these are available upon request by calling us on 0115 900 4995 or online at <http://www.forgeworld.co.uk/Home/Help.html>. These terms and conditions apply to every contact between you and Games Workshop Limited (trading as Forge World) so we recommend that you read them carefully before purchasing anything.

Forge World reserves the right to change any prices, availability and content of any products at any time and without notice.

## Where have some of our models gone?

Our range of models has become so large that we can no longer fit them all into our catalogue. Many of these models can still be found on our website.

You will notice that some of our model kits featured in the catalogue have a stylised eye logo next to them. This indicates that the model is appropriate for the timeline featured in our Horus Heresy books.
